Instructions for Flex Printing :

Download the **Sentinel_Drone_Arena.pdf** from **here** .

- You must carry Sentinel_Drone_Arena.pdf file in any storage device to the vendor who prints the flex sheet.

- Dimensions of the arena can be viewed in **.pdf** file by pressing **CTRL+D** in Adobe Reader. For your reference and verification, the flex sheet to be printed should be of dimension **7 x 7 sq feet**.

Preparing the yellow block

- Use **this** document to print yellow sheet of paper and wrap the box with yellow sheet to make the yellow thermacol box.(Thermacol box provided in hardware kit). Print this sheet using a **laserjet color printer on 100 GSM paper** (Inkjet or deskjet printer will not give out exact same color output)

> Team is **NOT** allowed to make any changes in the .pdf files provided. Any team making such manipulations will be disqualified from the competition.

Instructions for Vendor :

- The vendor must print the arena directly from the **.pdf** file.

- The vendor **cannot** make any changes in the **.pdf** file provided for printing.

- The flex should be printed on **star matt finish**.

General instructions for keeping flex sheet in good condition :

- Leave sheet open for about 30 minutes to dry in air after printing. After this, you can roll it and bring it home.

- Do not fold the flex sheet. Always keep it rolled after using it.

- You will be using the printed flex sheet throughout the competition, so teams are advised to store the rolled up flex sheet in a dry, safe place.

Submission instructions

- Print the Arena on the 7x7 ft flex and make 5 yellow boxes covered with yellow paper on all 6 sides.

- Place the arena on floor and 5 yellow boxes in the centre of the arena and take a photograph from top angle of the arena such that the entire flex is captured in a single frame.
- Submit the photo on the portal as task 3A
- Deadline for Task 3A is **18th January 2023 23:59 Hrs**
